

# ALL OF YOU

Duran Duran

How it kills when you ask me, am I going to stay  
And do I still want you baby, or was it all in play  
Got to tell you you've got so much I don't wanna lose  
If I had to if I had to pick the best bit, I really could not choose

I want everything  
All of what you do  
Every night, every day  
I want all of you

Give me sacred motivation with your deeper touch  
Talking dirty conversation, your look says so much  
So much more to this songs meaning I don't have time to say  
Hit the high note of my feeling, can't let this fade away

I want everything  
All of what you do  
Every night every day  
I want all of you

I want everything  
All of what you do  
Every night every day  
I want all of you

Yeah, we got history  
But we got mystery

Like the sun like the sun we'll burn  
This much we have learned  
Like two souls among many others  
Like the sun we'll burn

In that we are music lovers  
This much we've learned  
Two souls among many others  
Like the sun we'll burn

I want everything  
All of what you do  
Every night everyday  
I want all of you

I want everything  
Give me everything  
I want everything  
Give me everything  
Yeah, we got history
