You can call me wrong
You can put me straight
Say the very thing
That I love or hate
Another youtube star
You know how its gonna end looking for the real world with my f
acebook friends

Elegant times for no conversation
Cos' now we're online a networker nation

rld
if we can stay awake in this screen-lit room
Halfway in tonight would spark the news
Set the story alight

Elegant times for no conversation
Cos' now we're online a networker nation and nobody minds
If its imitation we're living our life in a networker nation

Elegant times but no conversation
Cos' now we're online a networker nation and nobody minds
If its imitation we're living our life in a networker nation
