

On Evil Beach

Duran Duran

A drop of blood on evil beach
And soon the sharks swim to the pool
She makes a splash red face on him
In front of the entire school

Here lies the misadventure
Feel the same as you yourself
Creatures eyes in full dimensions
Give it all that we got left

We light a spark on evil beach
And soon the sharks swim to the pool
She makes a splash red face on him
In front of the entire school

Here lies the misadventure
Feel the same as you yourself
Creatures eyes in full dimensions
Give it all that we got left
