

This Lost Weekend

Duran Duran

This lost weekend
By the evening I can
Smile at the memory
The taint of scandal on my skin, yeah and it seems that I've been manic
So gravelly quite
The joker on a string
So I'm leaving all my trouble to history but you know how I will pretend, oh
ah ha high high...

Show no mercy to this clown please remind me
Should I forget this lost weekend, oh oh why ah ah...

Lucky nothing
Could have done without the sighing (should I forget this lost weekend)
You can't work the humbling
Trying to hush it all up now (should I forget this lost weekend)
Don't blow it all or nothing
Don't watch me now I'm blushing (should I forget this lost weekend)
Don't bother me or nothing
I, I'm busy working (should I forget this lost weekend)

I'm working on to something
I ah ah (should I forget this lost weekend)
and your testing my all entire meds?
(should I forget this lost weekend)
(should I forget this lost weekend)
