

Around

Durand Bernarr

(You know I love you down)
But I can't miss you if you're always around (Mm, yeah, hey)
(You know I love you down)
But I can't miss you if you're always around

(I'm feelin') A little boxed in
May I get a minute to reassess my space?
(I'm gettin') A little claustrophobic and
There's nothin' like a moment to get back to your quiet place

(You know I love you down)
But I can't miss you if you're always around (Yeah)
(You know I love you down) Ooh-oooh, woah, mm, yeah, yeah

How do I explain I need you to amscray
But just for a little while? (I'm nauseous)
There's no love lost but I'm havin' dreams like Whoa Mugg
And I just want to miss your smile

(You know I love you down)
But I can't miss you if you're always around (Mm, yeah)
(You know I love you down)
But I can't miss you if you're always around, -ways around

(Once we take a break I can regain my strength)
'Cause no good came from way too much good
(Once we take a break I'll have gotten back my strength)
'Cause I'll have miss so much not bein' around my good thing
Oh, yeah
I wanna miss you, but I can't if you're always around

(You know I love you down)
But I can't miss you if you're always around (Mm, yeah)
(You know I love you down)
But I can't miss you if you're always, always around
