

Completed

Durand Bernarr

Back like we never left
Been waiting on the better version of you
You used to be tethered to an old truth
We were worn like leather in an old shoe
Took an intermission
And though I was missin you
I'm so glad we made it through
I would never turn you away

Now we're on the same page
Took space to hold space
Gave grace to give grace
Walk together, keeping pace

Completed ooo
I needed you
Our pieces glued
It's me and you

Thick as thieves, needed cohesion
Felt uneven, not our season
I accepted all your reasons
Flew too high, we tapped the ceiling
But now we've resurfaced, a new day
Not overcompensating to save face
A whole ass healing human
And now I know there's a way

Completed ooo
I needed you
Our pieces glued
It's me and you

Completed ooo
I needed you
Our pieces glued
It's me and you

Completed ooo
I needed you
Our pieces glued
It's me and you

Completed ooo
I needed you
Our pieces glued
It's me and you

You
You
You
You

Completed ooo
I needed you
Our pieces glued
It's me and you

Completed ooo
I needed you
Our pieces glued
It's me and you

Completed ooo
I needed you
Our pieces glued
It's me and you

Now it's me and you
Can't believe what we been through
Did it all without you
And I didn't want to
Needed time to be away
Had to do some growing
Couldn't wait to see your face
Back together again... friend
