

# Flounce

Durand Bernarr

Lilies  
Sunflowers and daisies  
Nourish you daily  
With plenty of room to grow

You'd think it's easy  
To sprout from a seedling  
But what a beautiful feeling  
To reap of the seeds we've sewn

Primrose and Cosmos  
We build a bouquet  
Flourish in fragrance  
Even in the shade

Learn from each other  
And grow from a shoot  
But I won't pluck you  
And fuck up your roots

Flora and fauna  
Show me how you wanna be watered  
Flouncing through my garden with ease  
Ease... Ease... Ease

Flora and fauna  
We can be the soil for each other  
Flouncing through my garden with ease  
Ease... Ease... Ease

Sunlight feels so warm  
Been winter for way too long  
Springtime makes us whole  
Greenhouses that we call home

I'm gon' sacrifice (what it takes  
Stay within the update  
Growth is where magic's made  
The time it took to orchestrate)  
Its intuitive the bullshit will weed out in time

Flourish and fragrance  
We build a bouquet  
Orchids and tulips  
All things have a place

To learn from each other  
And grow from a shoot  
So release your burdens  
And put down your roots

Flora and fauna  
Show me how you wanna be watered  
Flouncing through my garden with ease  
Ease... Ease... Ease

Flora and fauna

Puffing on that good marijuana  
Flouncing through my garden with trees  
THC... Need my weed... Weed

Sigh, ya know...  
I just wanna grow with you  
I wanna go higher... and higher and higher

Welcome to the garden...  
Naw, ain't no secrets in here  
Just boundaries... smells good, right?

What's that fragrance?  
Safety releasing  
That's what you are  
When you're with me  
Affectionately  
You're never longing  
With good company

What's that fragrance?  
Safety releasing  
That's what you are  
When you're with me  
Intimately  
You're never longing  
With good company

What's that fragrance?  
Safety releasing  
That's what you are  
When you're with me  
Intimately  
You're never longing  
With good company

How do you feel?
