

GPS

Durand Bernarr

Ahh, yes, you're actually not far from your destination
Uh, now if you go down that road right here, uh-huh
Bus' a left, and another left, and then a right, and then a second right
Then two lefts, and then one left, and you're there

Just so you know I set the tone, I'm the example
The standard of how she should be handled
You won't be the only man in her life
Too late, she already knows what right feels like
If you want a good impression (impression)
I will give you some direction

Make a left, then a right
Find me on my good side
And stay there, stay right there

Make a left then a right
Find me on my good side
And stay there, don't go nowhere

I know you might be a little taken back (Ah-ah)
Cause from where I stand, it could look a little suspect (oh yeah alright)
Just know I don't play about her (Oh-oh)
Watch how you handle her nerves
You go too far, I'm gonna know

Make a left, then a right
Find me on my good side
And stay there (Stay there)
Stay right there (Stay right there)

Make a left, then a right
Find me on my good side
And stay there, don't go nowhere (Don't go nowhere)

If you can't keep cool, then it's cool on you
Don't interfere with the happy
You gotta vet these days, there isn't time to waste
We like peace, how are you adding'?

Ooh, ooh, ooh
Ooh, ooh, ooh, ow

Where my shaker at? Where my shaker at?
Where my shaker at? Where my shaker at? (I'll give you directions there)

Make a left, then a right, find me on my good side (Find me on my good side)
And stay there (Stay there), stay right there (You better stay your ass there)

Make a left, then a right, find me on my good side
And stay there, don't go nowhere (Ooh)

Make a left, then a right, find me on my good side
Just stay there (Then stay right there), stay right there (And your ass right there)
Make a left, then a right, find me on my good side (Find me on my)
And stay there, don't go nowhere

I need a praise report
Fill her up with joy
I wanna be wrong so act right
If you do your part we'll get along just fine
Then turn to the left (Wait, where you going?), after this last stop sign
(Chelsea: Uh-huh, tell me where to go again and you gon' be drivin') Ooh
(Chelsea: Do I need to pull over?)
Actually...
