

Here We Are

Durand Bernarr

Why don't you stay for a while
Lay your worries down on my couch
Relax your mind let it free
There's no cost you don't owe anything
Cause I know he left you
Well Hell, he left me too
But what's the use
When all in all

Here we are
(Here we are healing our wounded scars)
Here we are
Here we are under the northern star
(Here we are uh uh oh
Oh oh oh oh aah)

We've been friends for quite sometime
Nothing wasted but ideal minds
He left you without saying a word
But all you wanted was just to be herd
Cause I know it hurts
Cause hell it hurt me too
But whats the use
When all in all

Here we are
Healing our wounded scars
Here we are
Under the northern star

(Here we are uh uh oh
Oh oh oh oh aah)

Being here with you
Made the pain so worthwhile
Cause I cherish you
And I know that you do, too
What's the use?
It's what we are

Here we are
(Here we are healing our wounded scars)
Here we are
Here we are under the northern star
(Here we are uh uh oh
Oh oh oh oh aah)
Here we are...

Here we are
(Here we are healing our wounded scars)
Here we are
Here we are under the northern star
(Here we are uh uh oh
Oh oh oh oh aah)
Here we are...
