

H.I.

Durand Bernarr

Back before I knew things you could go through
For me, this wasn't an option
Gotta hang in there and bein' aware
Everything's a lesson
Then we got you, barely pushin' through
And you wanna give up, ah-ah
But the twist of it, you want me to sit
With you while you let go

Hi, never thought you would say, "Hi"
Never thought that you would be high
Never thought you would get high wit' me (Higher), high wit' me

Bye, be the last one to say, "Bye"
It hurts, but it's your time
Can't believe you wanna get high wit' me

I'm catchin' my breath, please forgive me
This is a lot
Is there anything I can do to change your mind?
I tell ya this kinda information is not for the weak
And if I can't feel my legs then what does that say about me?
Can't say I can't relate ('Cause I can't)
Because I know that place (Oh, too well)
Just didn't have the strength (Mm)
Not to give it one more day

Oh, hi, never thought you would say, "Hi"
Never thought that you would be high
Never thought you would get high wit' me (Higher), high wit' me

Bye, be the last one to say, "Bye"
It hurts, but it's your time
Can't believe you wanna get high wit' me
