

Jump

Durand Bernarr

Don't do it dude
Done this shit I'm telling you
Desire feels good
But discipline will save you
Cause I know where it goes when it's over
Slippery slope when you're fallin
Into illusion
Delusion, confusion
When you could be choosin
Who's choosin' you and truth is that
Nigga you know better
Cause you know he would never

You can be around
But you can't jump in it
You can be around
But you can't jump in it
You can be around
But you can't jump in it
No you can't get in it
Oh no

I wouldn't make that left turn
Don't get taught you gon get learned
Miss the signs, get curved
Put your love where it's returned
So the impact don't hurt
Gotta put your self first
(Know where you can lean
And where you can lay, keep it cute keep it friendly)

No more illusions
Delusions, confusion
When you could be choosin
Whos choosin you and truth is
That nigga you know better
Cause you know he would never

You can be around
But you can't jump in it
You can be around
But you can't jump in it
You can be around
But you can't jump in it
No you can't get in it
Oh no

You can be around it but you can't jump in
I wouldn't go over that ledge
You can be around it but you can't jump in, jump in
I would know, it's somewhere I've been

You can be around
But you can't jump in it
You can be around
But you can't jump in it
You can be around

But you can't jump in it
No you can't get in it
Oh no

You deserve what's reciprocal
Fake flowers never grow
Let this show you what's possible
What you need and what you don't
You deserve what's reciprocal
Fake flowers never grow
Let this show you what's possible
What you need and what you don't
What you don't
What you don't
Whatchu don't don't
Whatchu don't don't

That's the homie
That's your friend
Y'all got benefits
Just not them
That's the homie
That's your bro
I know you want to
But no. (NO!)
Just no
N-n-n-n No
