

No Business

Durand Bernarr

Ooh, no business
Ooh, no business
I ain't got no business
Loving someone else the way I love you
Ooh, no business
Ooh, no business
The way that I love you
Can only be for you, it's only for you

I ain't got no business loving somebody else the way I love you
That's just for me, that's just for you
You ain't even got the strength to replicate all the ways that you love me
That's just for you, that's just for me

I thought in my mind
I really found it this time
But what I came to see
It was what I needed
I've come a little way
From where I used to be
I can finally breathe
My nervous system is at peace

I ain't got no business loving somebody else the way I love you
That's just for me, that's just for you
You ain't even got the strength to replicate all the ways that you love me
That's just for you
The way that I love you can only be for you
It's only for you

I was trippin'
But I'm back up on my feet
I was just trippin'
Don't know what came over me
Your boy was trippin'
Thought lightning got me deep
Glad to bear witness
And move away from what could be
Might be danger in someone else hands
It's not you that I want, I need what we have elsewhere
I surrendered attempting to duplicate
How you love me won't ever be replaced

I ain't got no business loving somebody else the way I love you
That's just for me
That's just for you
You ain't even got the strength to replicate all the ways that you love me
That's just for you
That's just for me

Ooh, no business
Ooh, no business
I ain't got no business
Loving someone else the way I love you
Ooh, no business
Ooh, no business
The way that I love you

Can only be for you, it's only for you

Ooh, no business

Ooh, no business

I ain't got no business

Loving someone else the way I love you

Ooh, no business

Ooh, no business

The way that I love you

Can only be for you, it's only for you

Ooh, no business

Ooh, no business

I ain't got no business

Loving someone else the way I love you

Ooh, no business

Ooh, no business

The way that I love you

Can only be for you, it's only for you
