

Overqualified

Durand Bernarr

I'm little too self-aware
Love is a blessing and a curse when I care (I care)
I know finding good shit is rare
Cause it's impossible to look past what's there, (or not there)
I know who I am
I've known who I am
It's the confidence
Gets confused with arrogance
I'm a little fluid
And I know what I'm doing
Could it be hard to fathom
That I'm too well traveled
Contentment is old news
I, I...

Just can't seem to get right
How the hell am I...
Overqualified?
How am I
All that you need in your life?
I clocked that overnight, I'm overqualified

I'm the host with the most
And stay doing the most
Making sure that you're comfortable
See what happens when you do the work?
(Check!)
Does anybody have a reference
(Check!)
Is anybody on their way to work yet?
(Shit! I don't know)
I been waiting for too long

Just can't seem to get right
How the hell did I... Get overqualified?
How am I
All that you need in your life?
I clocked that overnight, I'm overqualified

How did I become that qualified?
Need someone to see me eye to eye
Gotta sit tight till the time is right
Overqualified

How did I become that qualified?
Need someone to see me eye to eye
Gotta sit tight till the time is right
Overqualified

Cain't wait til it makes sense
To be so much of myself
You'll be able to find me
Being who I am
Cain't wait til it makes sense
To be so much of myself
I know that you will find me
If I'm who I am

Just can't seem to get right
How the hell did I...
Get overqualified?

I clocked that overnight, I'm overqualified

Just can't seem to get right
