

# Processing...

Durand Bernarr

You know what this, this is  
Actually not the best time right now, so (Yeah, I can't, yeah)  
I'm not doing this  
Actually, I just

Need me a little time just to calm down my mind  
I just need me a little time just to calm down my mind  
I just need me a little time just to calm down my mind  
I just need me a little time just to calm down my mind  
I need to

Process, I need to  
Process (I need), I need to (I need)  
One sec', I need to (I need, I need)  
I need to process

Need a second to myself  
I'm here tryin' to catch my breath  
Don't wanna say what I'll regret  
That's why quiet's imperative, yeah (Shh)  
I don't know, so I can't say  
Let me come find you when I'm okay  
A little "ouch" there in that lesson  
Gonna spend some time with my feelings

Process, I need to (I need)  
Process (I need), I need to (I need)  
One sec', I need to (I need to)  
I need to process  
Process, I need to (I need)  
Process (I need to process), I need to (I need)  
One sec', I need to (I need, I need)  
I need to process

Yeah  
You good?

Need me a little time just to calm down my mind  
I just need me a little time just to calm down my mind  
I just need me a little time just to calm down my mind  
I just need me a little time just to calm down my mind  
I need to

Process this shit, process this shit  
Process this shit, process  
Process this shit, process this shit  
Process this shit, process (Process)  
Process this shit, process this shit  
Process this shit, process  
Process this shit, process this shit  
Process this shit, process
