## Durand Jones & The Indications

Let's relax, unwind and groove  
And let your soul feel the fire  
If you wanna get higher

Any vibe you ride I'll provide  
Like it's your own fantasy  
Long as you are with me

I know a place spinnin' records till late  
And my man says he's workin' the door  
I'm on the way, full of anticipation  
For a chance with you out on the floor

Hey  
Come through  
Bring the crew  
Come through  
Bring the crew  
Come through  
Bring the crew  
I just wanna be wit' you  
Ayyy

I wanna go 85  
With the deuce coupe purrin' like king of the pride  
Put the soft top down, they can see me shinin' wit' you  
Baby, wit' you

We'll ball out like we livin' the life  
Headed uptown, drippin', lookin' extra fly  
And if the drinks keep flowin', I can go all night wit' you  
Baby, wit' you

I know you came with your friends, but who you leaving with?  
Bodies talk between the lines, and we're both reading it

Know you can't wait to get back to my place  
'Cause you been asking where I'm finna go  
I got the space if you're bringing the case  
So tell your friends I got friends of my own

Hey  
Come through  
Bring the crew  
Come through  
Bring the crew  
Come through  
Bring the crew  
I just wanna be wit' you  
Ayyy

I wanna go 85  
With the deuce coupe purrin' like king of the pride  
Put the soft top down, they can see me shinin' wit' you
