

Slug Bug

DURRY

I was born and bred on the internet
Raised on re-runs and daytime television
Everybody loves the good old days
But I swear, it was never really that great

Slug bug and two for flinching
I was tongue-tied and overthinking
The more things change, the more they stay the same
But it was never really that great

I know life is unfair, but we're not dead yet
I guess I'll stick around
A couple more years, maybe I'll look back
And miss hanging out in this burnout town

The more things change, the more they stay the same
But if I'm honest, it was never really that great

Slug bug and two for flinching
I was tongue-tied and overthinking
The more things change, the more they stay the same
But it was never really that great

Stop the clock, blink, and you miss it
Too late, you can't go back and fix it now
The more things change, the more they stay the same
But kudos for trying

The scars are not your fault
It's all what makes us who we are
And in the end, you did your best
And now the rest is up to us
To heal the kid you tried to fix
And build a better world to live
To try to right the wrongs
It's all a part of being human

The scars are not your fault
It's all what makes us who we are
And in the end, you did your best
And now the rest is up to us
To heal the kid you tried to fix
And build a better world to live
To try to right the wrongs
It's all a part of being human

Slug bug and two for flinching
Tongue-tied and overthinking
The more things change, the more they stay the same
But it was never really that great

Stop the clock, blink, and you miss it
Too late, you can't go back and fix it now
The more things change, the more they stay the same
But kudos for trying
