

# The Long Goodbye

DURRY

I don't know where we're going next  
And I couldn't tell you where we've been  
We're always stuck in the middle  
Chasing that sunset  
That I know we're never gonna catch

In every place, all the faces look the same  
Beautiful strangers singing back to me  
We'll laugh and we'll cry  
And before the night is done  
We'll raise a glass for the loved ones we lost

And I know that it hurts and we're barely getting by  
But I swear that it's worth it  
To wring out every bitter drop of life  
From the day we were born  
Till the day that we die  
It's all just a long goodbye

When I was young, I wanted to be a cowboy  
Rough and tumble, roaming town to town with the boys  
But now I'm in a gang  
Got my posse in the van  
Ride or die every night  
Rock and rolling with my friends

In every place, all the faces look the same  
Beautiful strangers singing back to me  
We'll laugh and we'll cry  
And before the night is done  
We'll raise a glass for the loved ones we lost

And I know that it hurts and we're barely getting by  
But I swear that it's worth it  
To wring out every bitter drop of life  
From the day we were born  
Till the day that we die  
It's all just a long goodbye

Still just as broke as the day that I was born  
But I lay down feeling wealthy every night  
My wallet might be slim  
But my memories are filthy rich  
And only one's coming with me when I die

In every place, all the faces look the same  
Beautiful strangers singing back to me  
We'll laugh and we'll cry  
And before the night is done  
We'll raise a glass for all the loved ones we lost

And I know that it hurts and we're barely getting by  
But I promise you, it's worth it  
To wring out every bitter drop of life  
From the day we were born  
Till the day we die  
It's all just a long goodbye

It's all just a long goodbye  
It's all just a long goodbye
