

# Wannabe

DURRY

I know  
I know  
I should be better, but I've never been worse  
Been worse  
I'm done chasing every carrot on a string  
Dangle in front of me

We ain't got much, but we got tough  
Maybe that's enough for us  
What's the point of keeping up?  
Maybe I'm already who I wanna be  
Maybe I don't wanna compete

I know  
I know  
It might sound crazy, but I don't care  
Don't care  
Call me lazy, but I'm done chasing  
What's making you so miserable  
No, thanks, keep it, we'll make it on our own

We ain't got much, but we got tough  
Maybe that's enough for us  
What's the point of keeping up?  
Maybe I'm already who I wanna be  
Maybe I don't wanna compete

Maybe I'll be alright, just fine  
That's good enough for me  
Maybe, in the end  
Content is all you really gotta be  
You can keep your trophies  
I'm okay just being me  
Maybe, in the end  
Content is all you really gotta be

The grass is growing green enough  
Right underneath my feet, and I don't need to see  
What's on the other side  
If I'm already who I wanna be  
Maybe I don't wanna compete  
If I'm already who I wanna be

Alright, just fine  
That's good enough for me  
Maybe, in the end  
Content is all you really gotta be  
You can keep your trophies  
I'm okay just being me  
Maybe, in the end  
Content is all you really gotta be
