

# Mind the Gap

Dust Bolt

You think you can storm into my house think you can take away what is my choice  
Do what you're told you'd better watch out and look alive and afterwards shut your little mouth  
Want me to act like a marionette  
But let me show what's real and that I won't fuckin' act  
Why are you angry and getting mad [?]  
Raise the flag demonstrate your pay  
But you won't kill what's built and meant to stay  
Your last chance to take my hand was thrown away back at the day we've met

And you will never see the things I've seen  
Please mind the gap between me and your society

By the try to escape this sick worlds rules I find out more we're all playing the fool  
And I'm echoed in the same old patterns that I tried to break loose  
The more I see the more I do the more I know that I hate you  
I'll never miss and let me say you won't break me to go my way  
Hear the sound you dumbass can't relate  
Heartless minds disimpassioned kinds  
How will you react to this to ensuing lines  
Are you afraid of death  
[?] you never start living  
Make sure I'll dance on your grave  
Cause there'll be no one else no one else coming

And you will never see the things I've seen  
Please mind the gap between me and your society

You you think you know but this is my life and not your life that you'll never own  
And I will never get old  
None of my body not my mind You can't have my soul  
Mind the gap between me and you cause I'm fucking wasted and you're just a fool

And you will never see the things I've seen  
Please mind the gap between me and your society
