

## Chocolate And Mint

Duster

It's a fake hand  
Reaching through the gone  
And you're a cloud now  
But there's something on your mind

Hunting wild  
Gonna feed the ghost  
Haunting wild  
Want to feel it in your bones  
Just take this chocolate and mint

All day in bed  
With a bird nest in your mouth  
Float through the dim  
Without the strength to move

Hunting wild  
Gonna feed the ghost  
Haunting wild  
Want to feel it in your bones  
Just close your eyes  
Can't get the taste to fade  
Haunting wild  
Want to feel it in your bones  
Just take this chocolate and mint
