

Go Back

Duster

I want to go back to the sea
I want to go back to the beach
I want to go back to the sun
I want to go back to a dream
I want to go back there with you
I want to go back there with you

I want to go back to the sea
I want to go back to the beach
I want to go back to the sun
I want to go back to a dream
I want to go back there with you
I want to go back there with you

I want to go back to the place
Where everything was okay
And all the days and endless days
When I just learned your name
I want to go back there with you
I want to go back there with you
I want to go back there with you
