

## Memphis Sophisticate

Duster

I can't get it out  
The way I'd like to put it down  
The way I hear it in my head  
When I cannot sleep or cannot awake

It's clouds across the sky  
The moon can hide behind

You'll never hear it like I do  
When the brakes give way  
And the engine stalls  
Dropping out, fading out, burning out
