

## Something That I Need

Duster

As this all began  
Started making up what I wanted to be  
What I wanted to be  
Wandering around  
I was trying to find something that I need  
Something that I need

But you haven't tried anything else  
'Till you been with the one  
Been with the one  
Started to run to the one that I wanted  
Never opening eyes  
Never open your eyes
