

## Starting to Fall

Duster

I keep thinking about when we come around  
When summer is down and out  
Castle high in the cloud  
Came crumbling down  
Still sleeping without a sound

Stars washing your eyes  
They're starting to fall  
Now, starting to fall  
Harder we tremble

Falling apart  
Came tumbling down  
Stay with me a while  
A while

Crystals in your eye  
Too, starting to fall  
Now, starting to fall  
Harder

I kept tossing you down  
When you come around  
My head in the cloud, wow  
Hearts are going to break  
When they come to fall

Now, they're gonna fall  
Harder, fall  
Now, they're gonna fall  
Harder
