Summer War

Duster

The summer war is upon us now
We'll have to take our things and go
End is coming to take us home, alright

Watch the buildings coming down
Nothing's coming to save us now
Bring the horror to the front tonight

Devil's arming to the teeth
Come the phantom time to reap
Pray the Lord your soul to keep you now

Ah the ground, it's falling out
Summer shadow takes control
Let it go ‘cause nothing matters now

Watch the buildings coming down
Nothing's coming to save us now
Heaven's coming to take us home, alright

The summer war is upon us now
We'll have to take our things and go
All the heavens falling down tonight
