Duster

Have you got the shake up and out?  
Rock and roll

Clouds roll  
By outside

Watch out for the pain inside your smile  
Makes me feel  
Bleeding lights, colors colliding  
Lovely blur

Patience  
Haunt my sleep

Sweep up the heart on the heart attack  
Dipped in silver  
Oh, secret crush, push me inside  
Shoot to kill

Telephone lines connect  
Connect a call
