

## Back Road TN

Dustin Lynch

We got a God painted sunset view  
In a barbed wire frame  
It's like heaven on earth down here  
And that ain't ever gonna change  
Got some gas in the tank  
Got a road that was made for a night like this  
Just a dot in the dust  
One you never heard of  
But it's as good as it gets

They got mansions down in Georgia  
They got beaches in Caroline  
They got sunshine in California  
And Colorado will get you high  
But I got one arm wrapped around  
The prettiest thing I've ever seen  
Right here in this Detroit made Chevrolet  
In back road Tennessee

A full moon on a night this clear  
Lights her blue eyes up  
Ain't the only kind of shine around here  
We got a little in a cup  
A little smile, takes a sip  
I can taste it on her lips  
When she's loving on me, yeah  
She's my homegrown girl  
Ain't nowhere in the world I'd rather be

They got mansions down in Georgia  
They got beaches in Caroline  
They got sunshine in California  
And Colorado will get you high  
But I got one arm wrapped around  
The prettiest thing I've ever seen  
Right here in this Detroit made Chevrolet  
In back road Tennessee  
(Yeah, yeah, uh-uh)

I could spend my whole life here  
Long as she's right here  
Slipping her hand in mine  
Born and raised this way  
I swear I'm gonna stay small town 'til the day I die

They got mansions down in Georgia  
They got beaches in Caroline  
They got sunshine in California  
And Colorado will get you high  
But I got one arm wrapped around  
The prettiest thing I've ever seen  
Right here in this Detroit made Chevrolet  
In back road Tennessee
