

# Break It On A Beach

Dustin Lynch

It was lookin' like a good day  
87 and a clear, blue sky  
We were strollin' down 30A  
Koozy wrapped around a Bud Light Lime  
We were walkin', you started talkin'  
Sayin' I ain't in your long-term plans  
I knew we were on the rocks, but baby, I never thought  
You would bury me in the sand

Why'd you have to  
Break it on a beach, drop me like a bobber?  
Now every time I see white sand, blue water  
I'm sittin' there, missin' your body  
When I oughta be gettin' on my party  
Now I can't drink piña colodas  
That's what I always got us  
I just wish you'da done it somewhere I don't love to be  
If you had to break my heart  
Baby, why'd you have to break it on a beach?

Girl, I wish your mama taught you  
When and where to go to say goodbye  
Coulda took me to the city  
Maybe up on a mountain where it's cold as ice  
But you did it where people visit  
When they need a piece of paradise  
This has been my place since Spring Break '08  
Nah, baby, it just ain't right

Why'd you have to  
Break it on a beach, drop me like a bobber?  
Now every time I see white sand, blue water  
I'm sittin' there, missin' your body  
When I oughta be gettin' on my party  
Now I can't drink piña colodas  
That's what I always got us  
I just wish you'da done it somewhere I don't love to be  
If you had to break my heart  
Baby, why'd you have to break it on a beach?

Baby, why'd you have to  
Break it on a beach, right here in the sand?  
Sun up in the sky, cold one in my hand  
I know it's crazy, woah  
Thought it was a vacation, but no

Why'd you have to  
Break it on a beach, drop me like a bobber?  
Now every time I see white sand, blue water  
I'm sittin' there, missin' your body  
When I oughta be gettin' on my party  
Now I can't drink piña colodas  
That's what I always got us  
I just wish you'da done it somewhere I don't love to be  
If you had to break my heart  
Baby, why'd you have to break it on a beach?

Why'd you have to break it on a beach?  
White sand, a cold beer in my hand
