

# Colours

Dustin Tebbutt

Under Orion  
Under a waking hope  
A weekend fire  
Is burning away so slow

And all is flickering in so close  
And all, all of my chest said home

All the colours that your eyes see  
While staring at the coals  
All the ways you stand beside me  
You'll never be alone  
You'll never be alone  
You'll never be alone

You're chorus and quiet  
Held in the wildest glow  
Drawing a tide  
Where all of the waves don't go

And all, all in your hands moves slow  
And all, all of my chest said home

All the colours that your eyes see  
While staring at the coals  
All the ways you stand beside me  
You'll never be alone  
You'll never be alone  
You'll never be alone  
You'll never be alone  
You'll never be alone
