

Love Is Blind

Dustin Tebbutt

The sweetest lie
No complications
We're both changing
Side by side

Though my disguise
Won't let me be shy
Won't let you inside
I know you tried

My oh my
This love is blind, colourful and wild
My oh my, you show me
My oh my
When all you seek is buried deep inside
My oh my, you show me

What it is to live, to live, to live, to live
What it is to live, to live, to live, to live

Can I describe
The strangest feeling
Of finally nearing
The closing page

I'm on an island
Past your silence
Past the trying
To hold the sail

My oh my
This love is blind, colourful and wild
My oh my, you show me
My oh my
When all you seek is buried deep inside
My oh my, you show me

What it is to live, to live, to live, to live
What it is to live, to live, to live, to live

And all your fears
Won't hold your head at night
As all the years
They roll into one life
My oh my

My oh my
This love is blind, colourful and wild
My oh my, you show me
My oh my
When all you seek is buried deep inside
My oh my, you show me

What it is to live, to live, to live, to live
What it is to live, to live, to live, to live
What it is to live, to live, to live, to live
What it is to live, to live, to live, to live

What it is to live, to live, to live, to live
What it is to live, to live, to live, to live
