

# Wild Blood

Dustin Tebbutt

So gather the moments  
Still glowing in our minds  
They play on the ceiling  
The movie of our lives

Gone in the morning  
We are brave and fighting irons  
And I can't shake the feeling  
That you should stay this time

Cause there's wild blood in you  
That spark you'll never lose  
It's wild love in you  
Cause there's wild blood in you  
Wild blood, wild blood

Cause I'm gone without you  
I start to lose my mind  
My heart's still honest  
It's screaming stay this time

Cause there's wild blood in you  
That spark you'll never lose  
It's wild love in you  
Cause there's wild blood  
Cause there's wild blood in you  
Wild blood, wild blood  
Wild blood, wild blood  
Wild blood, wild blood  
Wild blood, wild blood
