

## Winter Sun

Dustin Tebbutt

You'll say that heart's a river  
Turns these boulders into stones  
Before we were all the boulders  
Were parts of mountains leaving home

Warm my skin with the winter sun  
Warm my skin with the winter sun  
Warm my skin with the winter sun  
Warm my skin with the winter sun

You'll say that love's like breathing  
Into the bottom of your lungs  
Past the honour, and all the flaws  
To know the body in my arms

Warm my skin with the winter sun  
Warm my skin with the winter sun  
Warm my skin with the winter sun  
Warm my skin with the winter sun

Warm my skin with the winter sun  
Warm my skin with the winter sun  
Warm my skin with the winter sun  
Warm my skin with the winter sun
