

# In The Middle Of Nowhere

Dusty Springfield

Where does our love lie  
In the middle of nowhere  
Will it soon pass me by  
In the middle of nowhere

Baby, won't you tell me  
What am I to do  
I'm in the middle of nowhere  
Getting nowhere with you

Mmm, where did my heart land  
In the middle of nowhere  
Where are the dreams I planned  
In the middle of nowhere

Listen to me baby  
Listen to my plea  
I'm in the middle of nowhere  
And it's worrying me

Over and over again  
You tell me you need my love  
If what you say is true  
Why can't we be together

Over and over you tell me  
I'm all that you're thinking of  
Baby you know that I love you  
But I can't wait forever

Where does our love lie  
In the middle of nowhere  
How can you let it die  
In the middle of nowhere

Are you going to leave me  
Leave my heart astray  
I'm in the middle of nowhere  
Come and show me the way

Over and over again  
You tell me you need my love  
Baby you know that I love you  
But I can't wait forever

Where does our love lie  
In the middle of nowhere  
How can you let it die  
In the middle of nowhere

Are you going to leave me  
And leave my heart astray  
I'm in the middle of nowhere  
Come and show me the way

Hey, where does our love lie  
Come on now

Where does our love lie  
Right slap in the middle of nowhere  
Right slap in the middle of nowhere  
Right slap in the middle of nowhere
