

Decided Knowledge

Dutch Uncles

You've got it
The curriculum vitae
What to mean it, you imagine
My reflection say
Place that feeling, you know it
You're to work this hand
And the reason your play your
'Cause it got this way
It's a shame you need it

It's decided, your opinion's tired
With this harmony
Then work is the same
It's the decided knowledge
Your opinion's tired of this
With this harmony
The work is decided

What did you think was?
But I thought about it
But did you know?
You know what else?
It's as scared as I am
You got it
It's the dude without denial reasons
For the body
But I stuck into his world and cry about it
What did you tell him?
'Cause I just can't be without it
Somehow it happens
With every day comes a bitter matter

It's decided, your opinion's tired
With this harmony
The work is the same
It's the decided knowledge
Your opinion's tired of this
With this harmony
I know that work is decided
It's decided, your opinion's tired
With this harmony
The work is the same
It's the decided knowledge
For a good man turning in it
It's decided, your opinion's tired of it
You've got it
With this harmony
It's a good man turning in it
You know it
It's decided, there's a lot about money in it
You've got it
With this harmony
You know it
It's decided, your opinion's tired of it
It's the decided knowledge
For a good man turning in it
