Dutchavelli

Yo

Light my spliff, let's do it again (Yeah)
In the studio at two a.m
I just want head in a comfortable bed
Is it rude if I wanna fuck you and your friend? (Let's go)
I love how your back just bend
You're a nine point five and your friend is a ten (Plus ten)
Gyal, bend your back for the G
And I might invest like Dragons' Den (Aha)

I'm just tryna beat then skeet
If the pum pum clean, we could do it again
At first, I was tryna get you on your own
But you and your girl got that batty and bench
Gyal, bend your back for the G
I slap it and squeeze it, you give me consent
Only a boss could cover these losses
You quit your job, I'll cover the rent (Yeah)
It's Dutch from the fifth
I still slide through in the ends
I've got a few things that I got on my mind
I ain't got time, I got money to spend
I hit it from the back while I'm grabbin' her throat
She want me to cum, just tell me when (When?)
You can tell she was raised up north
She wanna make love in the LDN

Light my spliff, let's do it again (Yeah)

Gyal, bend your back for the G
And I might invest like Dragons' Den (Trust)

But that's only if your friend's interested
Just got a new yard somewhere in the country
The WiFi box is still not connected
(But it's calm, I've got data) Trust
Turn on the action 'cause we can't watch Netflix
I'm an arse man, the breast to impress
So it isn't that fun if they both come separate
Facts, I'm a Scorpio and she guessed it
I guess that the look that I give is intensive
Sauce on spill, man, it gets expensive (Yeah)
She wants me to be her bestie
Girl, I'm just tryna fuck you and your bestest
I guess you ain't never had rich sex
I could have both of you wearing my pendants

Light my spliff, let's do it again (Yeah)
