

Never Forget You

Dutchavelli

It's Niko on this beat
Yo

Memories don't die like people do
That's why I can never forget you
You tell me that you think I don't love you
You must be crazy, look at what we went through
Last few months, I've been through hell
I'm still learning how to love myself
You tell me that I'm not myself
You're right, I ain't been lately

But you've been going through things yourself
It's mad, why wouldn't you tell me?
I think it hurts more when you bottle it up inside
Girl, it's so unhealthy
The past few months, you've been hiding your scars
It's sad to see how you're killin' yourself
I would of killed a man that done this to you
The craziest thing, you did it yourself
Trust, memories don't die that easy
I ain't scared of dying, I think that's the time that we all live freely
Yeah, I hate when you call me and tell me you need me
I think you should love yourself more (Love yourself)
And I hate the fact that I need you
I think that it's something we all need help for

Memories don't die like people do
That's why I can never forget you
You tell me that you think I don't love you
You must be crazy, look at what we went through
Last few months, I've been through hell
I'm still learning how to love myself
You tell me that I'm not myself
You're right, I ain't been lately

Trust, lately you've been actin' different
Trust, lately you've been all so distant
I feel like we're slowly driftin'
Mister probs, wave after wave
I feel like I'm drowning
I'm from the bright city where there ain't no love
Look, but I heard touch is like a drug
We're too toxic like Bobby and Whitney
Behind these four walls and nobody but us
It hurts to see you going through pain
It won't go away 'cause you cover it up
You feel like I don't communicate
And I feel like you don't tell me enough
So where do we go from here?
It's clear, we both got problems
I get money and— god bless you, you're beautiful
So we both got options
You asked if it all meant nothing
You're mad, of course it does
Just watching us slowly fall apart
Next time I don't wanna fall in love

Memories don't die like people do
That's why I can never forget you
You tell me that you think I don't love you
You must be crazy, look at what we went through
Last few months, I've been through hell
I'm still learning how to love myself
You tell me that I'm not myself
You're right, I ain't been lately

Memories don't die like people do
That's why I can never forget you
You tell me that you think I don't love you
You must be crazy, look at what we went through
Last few months, I've been through hell
I'm still learning how to love myself
You tell me that I'm not myself
You're right, I ain't been lately
