Angel

DVBBS

I found an angel from outer space
We feel the same 'bout a lotta things
She wouldn't change for the milky way
Her love is so new age

She's got a flicker in her eyes, make you feel alive
I wake up high, cross my heart, and girl I hope to fly
Like everyday we fly away baby you know you blow my mind
Oh my, girl you blow my mind

I found an angel from outer space (Oh yea)
We feel the same 'bout a lotta things (Oh yea)
She wouldn't change for the milky way (Oh no)
Her love is so new age

I found an angel from outer space
(angel from outer space, angel from outer space)
I found an angel from outer space
Angel from outer space
I found an angel from outer space

I found an angel from outer space
I found an angel from outer space

We were flying higher than balloons
Taking off and shoot me to the moon

I found an angel from outer space (Oh yea)
We feel the same 'bout a lotta things (Oh yea)
She wouldn't change for the milky way (Oh no)
Her love is so new age

She's a warrior I'm wondering if there's more to find
I got a rocket in my pocket let's explore the sky
Like everyday we fly away baby you know you blow my mind
Oh my, girl you blow my mind

I found an angel from outer space (Oh yea)
We feel the same 'bout a lotta things (Oh yea)
She wouldn't change for the milky way (Oh no)
Her love is so new age

I found an angel from outer space
(angel from outer space, angel from outer space)
I found an angel from outer space
Angel from outer space
Angel from outer space
Space [x4]
I found an angel from outer space

I found an angel from outer space (Oh yea)
We feel the same 'bout a lotta things (Oh yea)
She wouldn't change for the milky way (Oh no)
Her love is so new age

I found an angel from outer space
