Catch

Feel you pulling on my lifeline  
Spinning faster than the hands of time, tick-tock  
I let you in just to push you back  
Slow release, I'm a fool for that  
And now we're dancing under moonlight

Floating away with someone to hold on  
Starting to break, you gonna stay or sink to the bottom?  
If you feel an emotion, let the waves carry us  
Tides that can change, love is a game  
Can you wait any longer?

If you can onto this  
Then close your eyes, take a risk  
I'll let you explore, unlock my body for you  
I'm tracing your fingertips  
The taste of love on my lips  
I'll let you explore, unlock my body for you (yeah)  
Catch (yeah)  
Catch (yeah)  
Catch (yeah)

Feel you pulling on my heartstrings  
Perfect tuning at the perfect time, la la  
The sounds you make, like a lullaby  
Back and forth, you got me hypnotized  
Only covered by the night sky

Floating away with someone to hold on  
Starting to break, you gonna stay or sink to the bottom?  
If you feel an emotion, let the waves carry us  
Tides that can change, love is a game  
Can you wait any longer?

If you can onto this  
Then close your eyes, take a risk  
I'll let you explore, unlock my body for you  
I'm tracing your fingertips  
The taste of love on my lips  
I'll let you explore, unlock my body for you (yeah)  
Catch (yeah)
