

Running out of air chasing after you, after you
Falling out of love there is nothing left to do,
left to do

You shooked my bones, you sucked me dry
But i couldn find the words I'd tell you
Please baby swear your only mine
Tied up in a knot we can't undo

Fill my soul make me whole
Do you feel the way I do
Hello and good bye my deja vu
Hello and good bye my deja vu

(Get off the ground lets break it down)

Running out of air chasing after you, after you
Falling out of love there is nothing left to do,
left to do

You shooked my bones, you sucked me dry
But i couldn find the words I'd tell you
Please baby swear your only mine
Tied up in a knot we can't undo

Fill my soul make me whole
Do you feel the way I do
Hello and goodbye my deja vu
Hello and goodbye my deja vu

Hello and goodbye my deja vu

Hello and goodbye my deja vu

(Get off the ground lets break it down)
