

## Just Words

DVBBS

They're just words words words words that you say  
I love you is so easy sat there playing those games  
I need action, I've got no time to waste  
They're just words words words words that you say

All I need, all I need, all is need is one touch  
Wanna feel, wanna feel, wanna feel like I'm loved again  
No I don't think I'm asking too much  
I need more than words

You don't know, what I'm going through lately  
You don't know, the way that you make me lose control  
Going out my mind  
Time after time after time

They're just words words words words that you say  
I love you is so easy sat there playing those games  
I need action, I've got no time to waste  
They're just words words words words that you say
