

Leave The World Behind

DVBBS

Hold me baby
Cuz tomorrow who knows what we will be
Just a drop in the sea
Or another grain of sand on the beach

Darling when your by my side all my fears ricochet
Take my hand, pull me close when it all goes up in flames

We'll be dancing under the purple skies
You'll be my sunrise
When the sun don't shine
If the sky falls down, baby you and I
We can leave the world behind

Lalalalalalala
Lalalalalalala
We can leave the world behind

I'm not afraid,
So alive, no longer counting the days
The touch of your skin
On my body like a warm summer wind

Darling when your by my side all my fears ricochet
Take my hand, pull me close when it all goes up in flames

We'll be dancing under the purple skies
You'll be my sunrise
When the sun don't shine
If the sky falls down, baby you and I
We can leave the world behind
We can leave the world behind

We'll be dancing under the purple skies
You'll be my sunrise
When the sun don't shine
If the sky falls down, baby you and I
We can leave the world behind

Lalalalalalala
Lalalalalalala
We can leave the world behind

Lalalalalalala
Lalalalalalala
We can leave the world behind
