

## Let You Down

DVBBS

No more secrets  
No more picking up the missing pieces  
My heart, keep it  
I will never leave you at your weakest

When you're joining in the silence  
And you're giving off the fire with demons talking  
This talking  
You know that I'll be here and

Not gonna let you down  
Not gonna let you down  
Let me stay, promise you'll be safe and still  
Cause I'm not gonna let you down

Not gonna let you down  
Not gonna let you down  
I will wait, right where you leave behind  
Not gonna let you down

No more secrets  
No more picking up the missing pieces  
My heart, keep it  
I will never leave you at your weakest

When you're joining in the silence  
And you're giving off the fire with demons talking  
This talking  
You know that I'll be here and

Not gonna let you down  
Not gonna let you down  
Let me stay, promise you'll be safe and still  
Cause I'm not gonna let you down

Not gonna let you down  
Not gonna let you down  
I will wait, right where you leave behind  
Not gonna let you down

Not gonna let you down  
Not gonna let you down  
I will wait, right where you leave behind  
Not gonna let you down
