

Set Me Free

DVBBS

It's been too long
I know exactly what I need
I gotta treat myself
Go somewhere I know will set me free

It's been too long
I know exactly what I need
I gotta treat myself
Go somewhere I know will set me free

It's been too long
It's been too long

It's been too long

It's been too long
And I know exactly what I need
I gotta treat myself
Go somewhere I know will set me free, oh

Yea we can fly there
Take a boat
One way or another
I've decided
Say the word
We can go discover

Every single place there isn't one
That's too far
If you're a rider
Let me know
Cause I'm down to book it now
Tell me we can book it now

It's been too long
I know exactly what I need
I gotta treat myself
Go somewhere I know will set me free

It's been too long
I know exactly what I need
I gotta treat myself
Go somewhere I know will set me free

It's been too long
It's been too long

It's been too long

It's been too long
And I know exactly what I need
I gotta treat myself
Go somewhere I know will set me free
