Summer Nights

DVBBS

Left your heart in the backseat
With the windows down in the Mercedes
Had the radio on bumping the 80s
Young and wild on a summer night

I remember when you told me
I'm the reason that ya haven't felt lonely
Then I asked if I could kiss you you said only
If I'm asking if you'll spend the night

Then you said hey, say you'll stay
You'll be safe inside my bed
It's getting late, no time to waste
Tomorrow can wait

Summer nights with you
Let's get high on memories
There's no place I'd rather be
With you
Let's get high on memories
Wake up tomorrow, hit repeat

You say love the beach
Way the sun and the sand feels on your feet
Swear the waves come crashing when you're over me
When you smile it's like the sun shines

And it could be a cloudy day
But you still light up even when it rains
Came a very long way from the windowpanes
All we're seeing now is blue skies

Then you said hey, say you'll stay
You'll be safe inside my bed
It's getting late, no time to waste
Tomorrow can wait

Summer nights with you
Let's get high on memories
There's no place I'd rather be
With you
Let's get high on memories
Wake up tomorrow, hit repeat

With you
Let's get high on memories
There's no place I'd rather be
With you
