I could swim in your eyes
Hope that the tide doesn't drag me out
I could swim in your eyes
Deep in your love and I wanna drown

Don't know when it started
Ooh, when you dug your nails in me
You were all I wanted
That shade of blue is all I need

The further out I go
The more I really know
Your technicolor shimmer

The further out I go
The more I really know
Your technicolor shimmer

I could swim in your eyes
Hope that the tide doesn't drag me out
I could swim in your eyes
Deep in your love and I wanna drown

I could swim in your eyes
Hope that the tide doesn't drag me out
I could swim in your eyes
Deep in your love and I wanna drown

Don't leave me broken-hearted
All alone, ten thousand leagues
'Cause underneath the water
You're the only way I breathe

The further out I go
The more I really know
Your technicolor shimmer

The further out I go
The more I really know
Your technicolor shimmer

I could swim in your eyes
Hope that the tide doesn't drag me out
I could swim in your eyes
Deep in your love and I wanna drown

I could swim in your eyes
Hope that the tide doesn't drag me out
I could swim in your eyes
Deep in your love and I wanna drown
