ur so cute

DVBBS

Let's dance all night till the midnight
I'm alright, tell me if you're alright
Want to be, want to be with me
Tell me what you really want to see
Travel the world, go to Bali
Then let's meet up in Cali

I really want you badly
I wanna peekaboo with your fatty
If you wanna be my boo, you've gotta be sexy
I wanna be with you, you're so cute

Bands on my body
I got like bands on my body
I'm in a drop top and she give me top now
I got like bands on my body with the top down
Bird's eye view 'cause I'm 'bout to tap out
You know that I'm about to black out
One blow, yeah, you know that's a knockout
They want the code but they are locked out
Just know that you are washed out

Paris, tell me if you wanna go there?
All the baddies, they stare
All the baddies wanna pull my hair
All the baddies, they wanna compare
They're so competitive
Say the same shit, repetitive
Why you so negative?
Y'all tryna change up the whole narrative

Let's dance all night to the midnight
I'm alright tell me if you're alright
Want to be want to be with me
Tell me what you really wanna see
Travel the world go to Bali
Then let's meet up in Cali

I really want you badly
I want to peekaboo with your fatty
If you wanna be my boo, you've gotta be sexy
I wanna be with you you're so cute

Bands on my body
I got like bands on my body
I'm in a drop top and she give me top now
It's a crazy view 'cause I see it from the top down
Birds eye view 'cause I'm about to tap out

Bands on my body with the top down
I got like bands on my body with the top down
I'm in a drop top and she give me top now
I got like bands on my body with the top down
