

We Were Young

DVBBS

We were young, we were dumb
We would do it all again
We will never sleep
We will stay up with our friends

Where we go
We don't know
Where we go
We don't know

These memories will fade
But we'll do it again
We were high on youth
Searching for our happy end

Where we go
We don't know
Where we go
We don't know

We were young, we were dumb
We would do it all again
We were young, we were young Young, young, young, young..
We were young, we were dumb

We were young, we were dumb
We would do it all again
We will never sleep
We will stay up with our friends

Where we go
We don't know
Where we go
We don't know

These memories will fade
But we'll do it again
We were high on youth
Searching for our happy end

Where we go
We don't know
Where we go
We don't know

We were young, we were dumb
We would do it all again
We will never sleep
We will stay up with our friends

Where we go
We don't know
Where we go
We don't know

We were young, we were dumb

We would do it all again

We were young, we were young Young, young, young, young..

We were young, we were dumb
