# When The Lights Go Down

**DVBBS**

When the world is heartless
When the night is darkest
When the fight is hardest
This love will go the farthest

Cuz ill keep this fire alive
Our sparks will own the night
Ill keep you by my side

When the stars the go out
Cuz we're feeling so hot right now
This love will never touch the ground
We'll be shining when the lights go down

When the lights go down
When the stars go out
When the lights go down
Shining when
Shining when
Down

When your soul is older
And your heart grows colder
If it doesn't feel like it did when you were young
Ill breathe the flames into your lungs

Cuz ill keep this fire alive
Our sparks will own the night
Ill keep you by my side

When the stars the go out
Cuz we're feeling so hot right now
This love will never touch the ground
We'll be shining when the lights go down

We'll be burning when the stars go out
Cuz we're feeling so hot right now
This love will never touch the ground
We'll be shining when the lights go down

When the lights go down
When the stars go out
When the lights go down
Shining when
Shining when
Down
When the lights go down
When the stars go out
When the lights go down
Shining when the lights go down
