

## Wicked Ways

DVBBS

I've lived a thousand lives searching for fun  
Just a glimpse of your blackest waves  
And I've come undone  
Rise from the ashes, smoke from your gun  
Dust from your photo covered the sun  
So just let me find my way, reckless and young

But you break me down with your wicked ways  
Take me underground when you say my name  
Throw me to the worlds and a twist of faith  
But I can't help it, I love your wicked way  
I love your wicked way, hey  
I love your wicked

I've died and come to life, you were the night  
It chilled me to the bone, your heart must be ice  
Searching for colors in black and white  
[?] in the madness. Pain in disguise  
Shall leave it way to you, cruel paradise

But you take me down with your wicked ways  
Take me underground when you say my name  
Throw me to the worlds and a twist of faith  
But I can't help it, I love your wicked way  
I love your wicked way, hey  
I love your wicked
