

And I know you got away  
I know a lot of girls hate you  
Aww, they wanna replace you  
'Cause of the way that I rate you  
You've heard a lot, but it's all game  
A couple dopeboys, ball players  
Couple niggas straight out the fraud game  
Same one, but they all changed  
They hit a lick, hit a lick, hit a lick  
Hit a lick, hit a lick with you, with you  
Surprisin' themselves  
When he got you he didn't even know what to do  
With you

And I can't even blame him  
But I'm back around the way and  
You know I've been waitin' for so long

Surprised you're still talkin' to the same dude  
Nobody's last-named you by now  
I guess I can't blame you, ooh  
But I'm just tryna change your mind now  
Somebody should have claimed you  
Somebody should have claimed you by now, oh  
Hey, hey yeah, yeah

Wanna give your two weeks in  
A release for the trip you've been plannin'  
You stayed in for two weekends  
Datin' them dudes you've been  
Girl they're too good for your sin  
To unload yourself, take control of self, yeah  
Girl, I know you well, plus you know yourself, yeah, yeah  
You've been wastin' time  
You know that I'm right, to be honest, I...

I can't even blame him  
But I'm back around the way and  
You know I've been waitin' for so long

Surprised you're still talkin' to the same dude  
Nobody's last-named you by now  
I guess I can't blame you, ooh  
But I'm just tryna change your mind now  
Somebody should have claimed you (claimed you, baby)  
Somebody should have claimed you by now, oh  
Hey, hey yeah, yeah
